

Organization for Defending Victims of Violence

*Item 7. Human rights situation in Palestine and other
occupied Arab territories*

Mr. president

We have been addressing the Council to adhere to the principles of human rights and not to double standards regarding the suffering of the Palestinian people, who are subjected to the fiercest war of aggression, massacres, killings and daily executions at the hands of the Israeli occupation forces and herds of settlers in light of the world's silence and contentment with statements of regret and concern.

So now, we address your hearts:

Didn't the repressive measures of the Minister of National Security "Ben Gvir" against Palestinian detainees arouse your anger by isolating, killing, preventing visits to their families, and limiting the amount of water for consumption? Didn't your feelings move the Israeli Knesset's initial decision on 23/2/2023 depriving prisoners of health treatment and the approval of the Legislative Committee on 28/2/2023 to execute prisoners as a strange precedent in the history of world prisons?

Didn't you hear about the martyrdom of the two prisoners, Nasser Abu Hamid and Ahmed Abu Ali, during the past two months, due to the deliberate medical negligence of the prison administration?

Didn't your conscience rise against the settler monsters, protected by the Israeli army, storming the village of Hawara on 22/2/2023, burning it, looting the property of the citizens, and the fall of nearly two hundred wounded, and the call of the Minister of Finance to erase it as a threat of genocide!!!

Didn't your eyelids flutter at the killing of 70 martyrs since the beginning of this year in the massacres of Nablus and Jenin?

Don't all these brutal massacres against Palestinian civilians and male and female prisoners deserve a whisper to demand that Israel stop its crimes and terror against the Palestinian people?

Are human rights and humanity not the same, or are they prohibited for the Palestinian people, or as the Arab poet says:

“Killing a man in a forest is an unforgivable crime, and killing people in their homeland is a matter of consideration.

Thank you, Mr. President
